

the sanctuary

Santuario Bravio de Vilanculos Lda

The Sanctuary is pleased to offer comfortable and affordable accommodation for up to 12 guests in its newly refurbished Jacana Camp.

Designed for professional and leisure guests alike, Jacana is located within walking distance of the Sanctuary's office complex in an established shaded forest overlooking an open grassland and freshwater pools frequented by plentiful plains game and water birds. Powered by solar electricity and gas, the facility is entirely off-grid which adds to its charm without compromising on any modern conveniences.

FACILITIES

The central, open-plan kitchen and dining room is well-equipped with large gas stove and oven, an upright energy-efficient fridge/freezer and a chest freezer. Ample cookware, crockery, cutlery, utensils, glassware and table linens are provided. A fish-cleaning area is available outside. A braai (barbecue) area has been created just off the kitchen for a more traditional coal-fire cooking experience. Guests are reminded to please supply charcoal if they intend to braai.

A charming and helpful Camp Attendant and Chef, as well as a team of friendly Cleaners, will attend to your needs throughout your stay.

Two thatched, open-air outdoor leisure areas have been designed to accommodate alfresco dining, sundowners, a board game or a quiet shaded reading corner or meeting space.

Six twin chalets constructed from a combination of brick-and-mortar and canvas

have been carefully appointed to make the most of the cool shade of the forest. Each room consists of two single beds made up with high-quality linens, two cupboards and two spacious desks. Each room is further cooled by a ceiling fan, and a room safe is provided to secure valuables. Mosquito nets provide added protection from nocturnal insects. Bath and beach towels are provided.

A central ablution comprising four spacious showers and four separate toilets is serviced by solar geysers, providing ample hot water for all twelve occupants.

For guests who need to complete professional work during their stay, the large Office / Research laboratory offers plentiful desk and counter space, power points and printing facilities.

Wi-Fi is available at multiple locations throughout the camp, with data for the guests' own account.

ADDITIONAL SERVICES ON OFFER

The Sanctuary's central office can assist with:

- Fuel, grocery, airtime and data provisions;
- Boat and vehicle hire;
- Issuing of fishing licences;
- Bazaruto National Park access
